

*Little Leonardo's™ Fascinating World of the Arts* introduces kids to the creative world of the arts. So many different opportunities for artistic expression exist that every child should have no problem finding something that appeals to them—such as drawing, painting, music, dance, writing, poetry, design, architecture, or photography. Included are a glossary of terms and brief biographies of famous artists and other creative innovators.

With original Renaissance man Leonardo da Vinci as inspiration, these charming primers are the perfect way to encourage your child's interest in the fascinating worlds of the educational STEAM curriculum: Science, Technology, Engineering, the Arts, and Mathematics.

The **ARTS** are all about your imagination! Anything you can dream of you can create with some type of art.

**ARTISTS** use special tools and instruments to create pictures, sculptures, designs, music, and other things, such as **DRAWING** with pencil and paper ...

... **PAINTING** with **OILS** and **ACRYLICS** ...

... **DESIGNING** with a **COMPUTER** ...

... **SCULPTING** with **clay** ...

... taking **PHOTOGRAPHS** with a **CAMERA** ...

... **DANCING** in a **BALLET** ...  
and anything else you can imagine.

One of the most basic forms of VISUAL ART  
is **DRAWING**...

... where a PEN, PENCIL, CRAYON, or other tool is used to add LINES, SHAPES, and COLORS to a drawing surface like a piece of PAPER.

**PAINTERS** create shapes and colors by using PAINTBRUSHES and PALETTE KNIVES to apply layers of PAINT to a surface like CANVAS.

**SCULPTORS** can create even more realistic art in three dimensions from a solid piece of CLAY, or a rock like MARBLE.

Many different kinds of artists, using their skills with language, music, visual arts, and design, all work together with **ACTORS** to create **DRAMATIC** entertainment like **MOVIES, PLAYS, CARTOONS,** and **VIDEO GAMES.**
