

NIGHTFALL

Step into nightfall, as the boundary between day and night blurs and shadows begin to appear. Let your imagination roam as you bring to life the woodland creatures who live among the lush flora of this magical garden, and the whimsical fairies who call these creatures friends. Including 94 full-page illustrations of diverse plants and flowers—32 pages with Maria Trolle's signature black background—as well as a plant registry for artists to reference the flora rendered throughout this new collection.

MARIA TROLLE is a graphic designer and illustrator living in Tyresö, outside Stockholm. Her passion for gardening acts as a thread to her art, with plants, vegetables and flowers offering daily inspiration—preferably from her own garden.
